Matinafood Company

Matinafood Company, a pioneer in the production and distribution of dairy products, especially industrial milk powder and skim milk powder, was established with the goal of meeting the needs of domestic and international markets. We offer high-quality products with unparalleled food safety by utilizing modern technologies and adhering to international standards.

Our products include various types of industrial milk powder and skim milk powder, which are used in a wide range of food industries, including confectionery and other food production sectors. Our expert team at Matinafood constantly strives to provide up-to-date formulations that meet customer needs through research and development.

We believe in the importance of customer satisfaction and always strive to improve the quality and services we provide. By choosing Matinafood, you will enjoy the quality, freshness, and reliability of our products.

We appreciate your trust in Matinafood and hope to contribute to the growth and advancement of the country's food industry.

Industrial Milk Powder

Industrial milk powder is produced by evaporating the water content from milk and is used as a primary ingredient in various food industries, including dairy production and confectionery. This product is rich in protein and calcium and, due to its long shelf life, is an ideal option for storage and use at different times.

Skim Milk Powder

Skim milk powder is a fat-free milk powder suitable for individuals looking to reduce their fat intake. This product is high in protein and low in calories, making it applicable in the preparation of various foods and beverages.

Buttermilk Powder

This product is the result of the fermentation and drying process of milk. Buttermilk powder has a distinctive rich taste and is used in baking cakes, desserts, and dairy products like cheese. In addition to enhancing flavor, it also adds moisture to the food.

matinafood

Whole Milk Powder

Whole milk powder contains all the nutrients found in fresh milk, produced without removing the fat content. This product is ideal for use in preparing foods, beverages, and desserts, providing a similar taste and flavor to fresh milk, making it an excellent option for meeting nutritional needs

Vegetable Full-Fat Milk Powder

This product is made from plant-based sources, making it suitable for those with dairy allergies or following special diets. Vegetable full-fat milk powder, with its rich and creamy flavor, is used in preparing plant-based desserts and beverages.

Non-Fat Industrial Milk Powder

This type of milk powder, due to its lack of fat, is a suitable option for those looking to reduce their fat intake. It is rich in protein and is used in the preparation of various foods and beverages. By offering these diverse products, Matinafood meets the different needs of its customers and is always working to improve the quality and flavor of its products.

By offering these diverse products, Matinafood meets the different needs of its customers and is always working to improve the quality and flavor of its products.

Matinafood Packaging

In Matinafood Company, packaging is considered one of the key factors in maintaining the quality and safety of our products. We are committed to using the best packaging materials to ensure that our products are well protected during transportation and storage. The packaging for industrial milk powder and skim milk powder comes in 25kg and 20kg bags.

1.High Standards: Our packaging is designed according to international standards and is produced to prevent contamination and moisture from entering the products. This helps preserve the freshness and nutritional value of the products.

Matinafood Packaging

2. Proper Design: We place great importance on the design of our packaging. Our packaging is not only functional but also aesthetically appealing, giving our brand a unique identity. Clear information about the product, including ingredients, expiration date, and usage instructions, is printed on the packaging.

3. Reusable and Recyclable: At Matinafood, we care about the environment, and we strive to use recyclable and eco-friendly packaging materials. This helps reduce the negative environmental impact and leads us toward a more sustainable future.

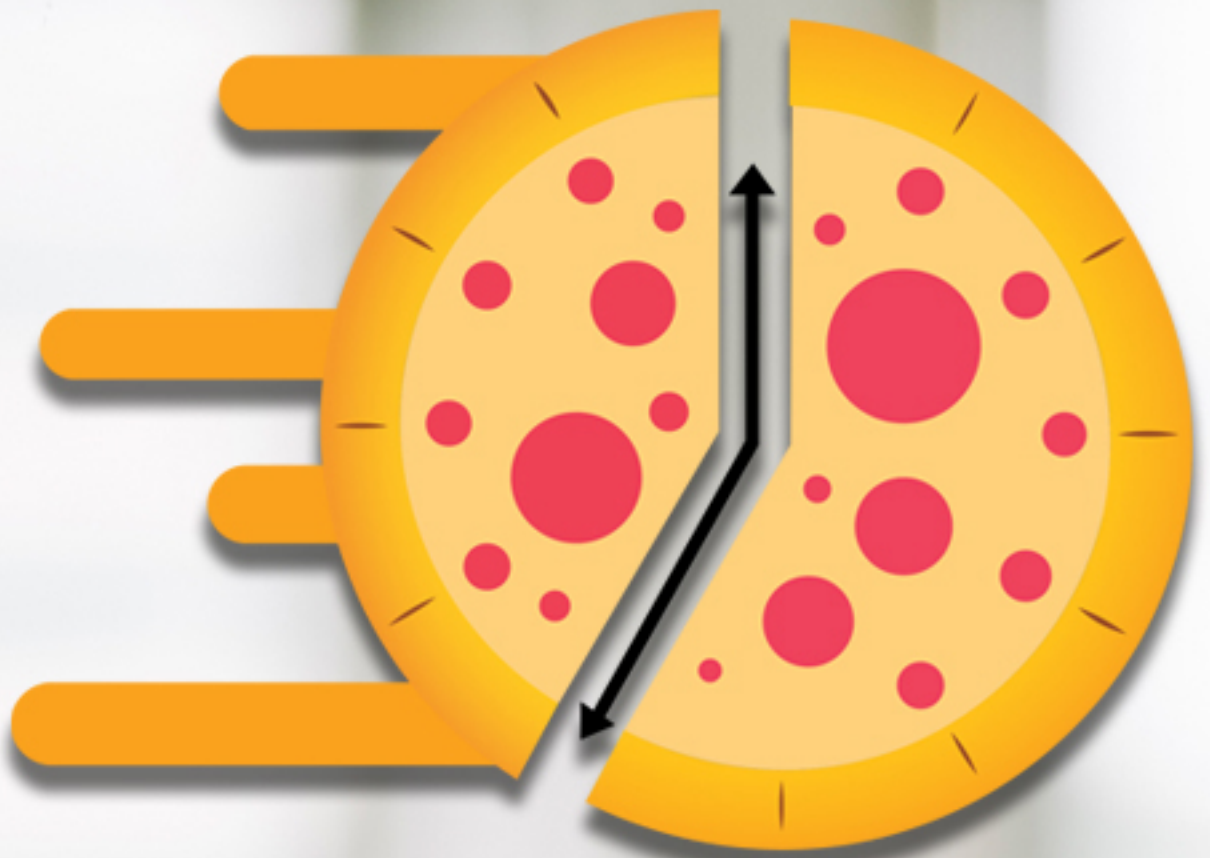

4. Various Sizes: Our products are packaged in different sizes to meet the diverse needs of customers. From small packages for household use to larger ones for industrial purposes, all options are available.

By choosing Matinafood products, you not only benefit from their excellent quality and delicious taste but also from their reliable and appropriate packaging. We are continuously striving to provide a satisfying experience for our customers by utilizing modern technologies and innovative solutions.
